Company Quality Policy

Quality Policy Statement

The management of Randridge International Ltd. recognise the requirement for Quality Assurance in all areas in which they operate, and therefore have committed themselves to the establishment of an effective, ISO 9001:2015 based, Quality Management System that is implemented within their various operational units.

The aim of the Quality Management System (QMS) is to ensure that all company business processes, goals and objectives are adhered to and monitored to ensure they are met.

We aim to achieve this by the following means:

- Maintaining our certification to ISO 9001.
- Ensuring that our policy is appropriate to our business and is adequately communicated.
- Resourcing and supporting our QMS.
- Complying with all applicable laws, regulations, standards and codes of practice.
- Understanding our clients' requirements and planning, resourcing and executing the works to meet them in full.
- Meeting the needs and expectations of our interested parties.
- Setting, documenting, communicating and reviewing objectives and targets.
- Ensuring that all activities are undertaken in a safe and quality focused manner.
- Being committed to the continual improvement of our QMS.

To assist in achieving these aims a Management Representative for the Quality System has been appointed who will be responsible for the introduction, documentation, implementation, maintenance and improvement of the QMS.

The QMS laid down in the Quality Manual has the unparalled support of the top management of Randridge International Ltd. The company recognises that quality is the responsibility of each employee. Top management ensures that the quality policy is communicated to all employees and relevant interested parties. It is included in new employee induction. Employees must therefore, accept as a condition of employment that they will, as directed, comply with the quality systems and procedures as outlined in this quality manual.

As a company we are conscious of our responsibilities to our staff and to the environment and to that end we comply with all aspects of health, safety and the environment.

Signed:
Darren Quinn
General Manager
